CONFEDERATION CELEBRATION

Probably in no town of its size in
Canada was the desire to properly
celebrate the Diamond Jubilee so pro-
nounced as in Blairmore. Practically
every citizen took a part. Promptly
at 10 o'clock on the forenoon of July
the first, whistles, bells, etc., were
sounded, and just as promptly chil-
dren and adults had gathered in the
vicinity of the central school ready
for the big parade.

Children were lined up six hundred
strong and each was given a flag by
the local Elks. The procession, led
by the Bellevue West Canadian band,
proceeded east on State Street, west
on Victoria Street to West Blairmore,
returning to the Sixth Avenue band-
stand, where the gathering was ad-
dressed by Mayor Farmer, Mr. J. E.
Gillis, Mr. P. M. Christophers, M.L.A.,
and Mr. F. O. McKenna, of Pincher
Creek, following which each child
again became the guest of the Elks
and was treated to ice cream and or-
anges.

About twenty floats entered the
procession and all were attractive.
Judging was in the hands of Mrs.
Fred Utley, of Bellevue; Mr. P. M.
Christophers and Rev. Mr. A. D. Cur-
rie. The McLaren Lumber Co's float
was awarded first prize; F. M.
Thompson Co., second prize; V. Rin-
aldi, honorable mention, while Miss
Ericson won the prize for the best
decorated bicycle. Mr. W. Howe was
awarded the prize for the best de-
corated home, with R. Green, J. H.
Farmer and F. M. Thompson receiv-
ing honorable mention. W. W. Scott
carried off the prize for the best de-
corated store window, while the win-
dows of S. Trono and Blairmore
Hardware Co. were highly commended.

Promptly at 1 o'clock, the sports
programme commenced at the ath-
letic grounds and continued through-
out Saturday, with the following re-
sults:

Races, etc.—Boys, 6 years—D. Mc-
Andrew, R. Richards, H. McDonald.
Boys, 7 years—Z. Giampetris, J.
Patterson, G. Hungar.
Boys, 8 years—R. Bennett, D.
Sandaluk, A. Thompson.
Boys, 9 years—B. Bannan, J. An-
dreshuk, C. Chappell.
Boys, 10 years—J. Hughes, A.
Brown, W. Petroski.
Boys, 11 years—A. Cassagrande, E.
Misuraca, C. Muska.
Boys, 12 years—A. Bianchi, J.
Eddy, M. Aschacher.
Boys, 13 years—F. Thomson, A.
Rae, L. Lirni.

BLAIRMORE UNITED CHURCH

On Friday evening, July 8th, at 8
o'clock, a special service will be held
by the Presbytery for the induction
of Reverend J. W. Smith to the pas-
torate of this church.

The following ministers, will be
present and take part: Mr. Gardies,
of Pincher Creek; Mr. Wright, of
Bellevue, and Mr. Bevan, of Coleman.
At the close of the service, a social
hour will be spent with the new pas-
tor and his family.

Next Sunday, July 16th, will mark
the opening of the ministry of Rev.
J. W. Smith in Blairmore.

Both the Sunday schools and the
evening public worship will be held
at their usual hours.

Mr. Smith is anxious to meet the
young people at the morning school
and boys and girls at the afternoon
school, while everyone is urged to at-
tend evening worship.

The willing co-operation of all is
asked, that this opening day may be
memorable to both minister and peo-
ple.

The Crows' Nest Chapter, I.O.D.E.,
wish to express its thanks to all who
by donations, by giving their services,
or in any other manner helped to
make the work of the stall at the
sports ground a success. Profits are
being given to the War Memorial
Fund.

223 25; B. Goodwin.

Single ladies' race—A. Link, E.
Bennett.

Pole Vault—J. Kemp, 7½ feet; J.
Oakes.

220 Yards—E. Timkham, 26½; C.
Richards.

Boys' three-legged race—Cruick-
shank and Richards, Rae and Dicken,
Serra and Goodwin.

Three-legged open—Kemp and Ve-
lvet, Kemp and Maniquet.

440 Yards, open—B. Goodwin, 57;
C. Richards, E. Timkham.

Quits competition—J. Bell, W.
Bell.

Timberpackers' race—N. Smith, J.
Margutak.

One Mile, open—James McVey,
4:43.5; L. Cousens, N. McDonald.

Married Women—Mrs. W. Rhodes,
Mrs. Kubasek.

Old men's race—A. J. Smith, G.
Jordan.

High jump—B. Goodwin, 5.2½; N.
McDonald.

Running broad jump—E. Timkham,
17.4; B. Goodwin.

One-mile bicycle—J. Kemp.

Tug-of-war—Fete McPherson and
all Scotland.

Sack race, open—C. Richards, J.
Kemp.

Relay race—L. Cousens, E. Timk-
ham.

Bowling—Dora Quarin.

Football, five-a-side — Capt. P.
Sharp, Capt. J. MacAndrew.

Five mile marathon — J. Kerr,
28.32 ("Jubilee" and individual cups);

James McVey (gold medal); G. Lie-
bergal (silver medal).

The attendance at the sports was
greatly in excess of what was expected
under the existing weather condi-
tions.

Refreshment booths were operated
on the grounds by the I.O.D.E. and
Pythian Sisters.

The Bellevue Band furnished music
throughout the two days.

On Sunday afternoon, at 2.30, the
prescribed service of Thanksgiving
took place at the Victoria Street
stand and was well attended.

The programme was in charge of Mr. J.
E. Gillis, chairman of the celebration
committee, who addressed the gather-
ing, then introduced the following
speakers: Rev. A. D. Currie, Rev. J.
W. Smith and Rev. Mr. Wright, of
Bellevue. The various addresses were
befitting to the occasion and much en-
joyed. The Bellevue band was in at-
tendance and rendered accompani-
ment for the various hymns, the Na-
tional Anthem, "O Canada," etc.

From Pay Envelope to Dividend Cheque

MONEY laid by in youth is worth double the
savings of middle age. Many a rich man today
bought the right to his dividends with the savings he
made once out of his pay envelope. Anyone with
determination can do the same.

The man who saves is the man with money.

WORLD HAPPENINGS
BRIEFLY TOLD

The Duke and Duchess of York received a warm welcome here upon their arrival at Portmouth, June 27, after their six months visit to Australia.

The Council of the League of Nations decided to invite the United States to the League's Third Annual transit conference at Geneva, Aug. 24.

Three persons were killed when an aeroplane fell 3,000 feet in the outskirts of Winnipeg, S.D. in an effort to restore the hearing and speech of a deaf mute.

Canadian employment conditions at the beginning of June showed a more favorable aspect than in any other month since 1920. Approximately 43,896 more workers were employed on June 1 than on May 1.

Twenty so-called Kirghiz noblemen have been arrested and banished and their property including some 20,000 sheep, confiscated because of the former Czarist affiliations of the so-called noblemen.

Jugo Slavia has an aspirant for trans-Atlantic flight honors. The newspapers assert that the aviator, Routhachich, is making preparations for a flight from Belgrade to New York in the near future.

The population of Ontario for the calendar year was 3,108,000, the latest vital statistics report issued by the provincial government show. The urban population is given as 1,475,159, and the rural population is 1,632,841.

Two hundred and seven persons in the United States paid taxes on incomes of \$100,000 and over for the calendar year of 1925, as compared with 75 in 1924 and 206 in 1916, the previous high mark.

Hon. Rodolphe Lemieux, Speaker of the Canadian House of Commons, was unanimously elected by the Paris Academy of Moral and Political Science, as the foreign member of the academy in place of the late Cardinal Mercier of Malines, Belgium.

Dairy men from the four western provinces will gather in Regina for the western Canada dairy convention to be held Feb. 7-10, 1926. The board of directors of the Saskatchewan Dairy Association decided on this at its meeting held recently.

Gift for Lady Willingdon

Winnipeg General Hospital Presenting Model of Spanish Ship
Directors of the Winnipeg General Hospital and members of the Provincial Government are making a presentation to Viscountess Willingdon of a silhouette model of a 15th century Spanish caravel. The work on the model has been done by the occupational department of the Winnipeg Psychopathic Hospital, under the supervision of Miss J. M. Stewart. Viscountess Willingdon, on the occasion of her recent visit to the city, remarked on the efficient workmanship on the model, which is a replica of a famous ship, "El Rayo de Dios." As a token of regard and as a memento of her first visit to the city the government and hospital board decided to make the presentation.

Honor Two Canadians

Alaskan Peaks Named After Fawcett and Simpson
The naming of two mountains on the British Columbia-Alaska boundary in honor of two Canadians has been officially recognized by the United States Geographic Board in a recent decision.

After the late Thomas Fawcett, D.T.S. Canadian section, a mount on the international boundary between British Columbia and Southeastern Alaska has been named Mount Fawcett. It is 16 miles southeast of the elbow of Stikine River.

In honor of Willibert Simpson, member of the Canadian section, international boundary commission, a mount 6,732 feet high has been named Mount Willibert. It is 12 miles southeast of the Unuk River.

Both Were Mistaken

Playing over an Irish link, a choicest colored test his ball and accused his caddy of having stolen it. When a moment later it was found the golfer began an apology.

"Arrah, mind mist at all, at all," said the boy. "You thought I was a thief and I thought you was a gitshtinn, an' begorra, we both made a mistake."

In 1924, more ships passed through the Panama Canal than at any time since its opening. There were 5,230 during that year.

Justice may be blind, but she has a good memory.

W. N. U. 1688

Will Tour Canada

Delegates to World's Poultry Congress to See Dominion

Delegates from forty nations attending the world's Poultry Congress in Ottawa, July 27 to August 4, will make a tour of Canada from coast to coast immediately following the Congress, preliminary announcement of the tour being made from the World's Poultry Congress office in Ottawa.

The tour will be made by special train leaving Ottawa on August 4 and covering first Quebec and the Maritime provinces as far east as Halifax, Nova Scotia. The special train will then tour Western Canada, making stops at Winnipeg, Brandon, Regina, Moose Jaw, Saskatoon, Edmonton, Calgary, at a number of famous beauty spots in the Rocky Mountains, at Vancouver and Victoria and other points en route. Upon their return East the delegates will visit Niagara Falls, and the party will disembark at the Canadian National Exhibition at Toronto, on August 31.

This tour of approximately eight thousand miles, which has been arranged through the co-operation of Canadian Government Departments and the Canadian Railways, will afford prominent visitors from many lands an opportunity to gain an impression of Canada's extent and resources which would not have been possible had their visit been confined to the World's Poultry Congress in Ottawa. About three thousand delegates from the United States are expected to attend the Congress, a number of whom will be included in the party making the tour of Canada.

Britain Must Guide Egypt

Empire's Highways Depend on Suez Canal Says Hurst

"Since Egypt must be governed by a foreign nation," declared Sir Cecil Hurst, legal adviser to the British ministry of foreign affairs in an address before the English-speaking union in Chicago, "it is the duty of the British government to guide the Egyptian government in its foreign relations." "Because the Suez Canal is the approach to our Australian Dominions and the Far East," Sir Cecil added, "through Egypt go the highways, arteries and living veins of British life and we must control them."

Fashion

A Dainty Frock

This charming frock is suitable for many occasions. The skirt is shirred to the bodice, having tucks at each shoulder, a becoming round collar and short sleeves. In view A the frock is made of plain material and is effectively trimmed with braid or insertion, while view B is fashioned of figured voile and has the trimmings omitted. No. 1560 is in sizes 6, 8, 10 and 12 years. Size 8 requires 2 yards 26-inch material, or 1½ yards 34-inch and 7 yards trimming for view A. Price 20 cents the pattern.

Home sewing brings also clothes within the reach of all and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

Miracles in Crime Detection

Seattle Criminologist Thrills Delegates to Convention of Chief Constables Association

Crime, its deep rooted causes in human nature and social conditions, the mechanism of its detection, its punishment and cure, the handling of the convicted criminal, the development, training and administration of the police officers who have those problems daily before them—all of those problems came within the scope of the deliberations of the Chief Constables Association of Canada during their annual convention.

Luke May, Seattle criminologist, and president of the North West Association of Sheriff and Police, thrilled the case hardened veterans of police departments from every province of the Dominion with his absorbing account of the miracles of the laboratory in crime detection from clues as a dropped match, a shred of fabric caught on a window-sill, the measurement of the nicks on the blade of a knife, the identification of a strand of hair, a finger print located on the inner workings of a pistol.

Development of scientific methods of crime detection and co-ordination of all law enforcement agencies through central state and provincial bureaus was his message. It was due to such co-operation as found in the case that Nelson, the suspected stranger, had been apprehended. "It was the sorriest day of his life that he chose to commit a crime in this Dominion," declared Mr. May.

Advanced Legislation

Saskatchewan Pure Bred Sire Act to Be of Great Benefit

The Saskatchewan Pure Bred Sire Area Act, which came into effect on May 1, is the most advanced legislation for the elimination of scrub stock, passed by any province in the Dominion, and closely resembles the Irish Live Stock Breeders act. It is expected that the passing of this act will have a far reaching effect on the improvement of the quality of live stock in the province. A number of petitions have already been received from rural municipalities requesting to be included in the pure bred-sire area.

Coffee and Spice Trade

There are 60 establishments with a capital investment of \$3,865,438 engaged in the coffee and spice industry of Canada, according to a recent report of the Dominion Bureau of Statistics. These have a gross annual production value of \$14,469,000, in which the value added by manufacturers is \$3,012,740. Imports of commodities under this heading have a value of \$6,731,091, and the only item of export is coffee and imitations which run to \$18,065 annually.

Biscuit Factory for Calgary

The Independent Biscuit Company will erect a factory in Calgary, Alberta, this summer and will have it in operation by September, employing 100 hands. The company is capitalized at \$250,000.

In Buffalo National Park, Alberta—The end of a duel between two male qule deer. Their antlers became entangled, holding them firmly, and the wardens had to rope them before they could be released.

SUNDAY SCHOOL LESSON

JULY 10

SAMUEL'S FAREWELL

Golden Text: Thy loving kindness is before mine eyes; And I have walked in Thy truth.—Psalm 23:3. Lesson: 1 Samuel 12. Devotional Reading: Psalm 26:1-8.

Explanations and Comments

1. "I Have Fought a Good Fight." Verses 1-5.—In a solemn address in which he resigned his office as judge, thus retaining that of prophet, Samuel stood before his people and announced that he had done their bidding in giving them a king. "And now, behold, the king walketh before you; and I am old and grayheaded; and, behold, my sons are with you." Various explanations may be given for this remark about his sons; by mentioning his age and his sons he referred to the reasons given by the people for demanding a king (1 Sam. 8:5). The sons were his own and they proved that their father was of advanced age; he was about to abdicate his position as judge, and he besought their kind treatment for his sons who had been his assistants. "And I have walked before you from my youth up to this day." See 1 Sam. 2:18, when his service first began. Budge suggests that his thought here was: "The king you will find out later, but you have known well for a long time. Then Samuel put himself on trial and asked them to witness before Jehovah and Saul, his anointed, as judges, as to whom he had defrauded or oppressed, or of whom he had taken a bribe. "Whose ox or whose ass have I taken?" is his question. These were the most valued possessions of the people, who were farmers and shepherds. "Of whose hand have I taken a ransom to blind mine eyes there with?" The ransom was the money offered by Jonathan to induce him to acquit a murderer.

Compare Paul's assertions of blamelessness in his farewell address to the Ephesian elders at Miletus, Acts 20:17-27. The people emphatically testified that Samuel's record was spotless, and he reminded them that God was their witness.

"Who shall ascend into the hill of the Lord, and who shall stand in His holy place? He that hath clean hands, and a pure heart; Who hath not lifted up his soul unto falsehood, and hath not sworn deceitfully."

Is Still a Problem

Getting Prince of Wales Married Seems Hopeless Task

After one of the most active years in his life in which Edward Albert Christian, George Andrew Patrick David Windsor, Prince of Wales and heir to the British throne, has been "engaged" or "married" more than any year since he was born, he still remains single.

Ever since 1911, when the Prince was 17, trying to marry him off has been a favorite hobby of his. It was at that time that his marriage to Princess Victoria Louise of Prussia was mooted. The fact that the Kaiser and Kaiserin were then visiting Buckingham Palace probably gave rise to the rumor. Next, Grand Duchess Olga, daughter of the Czar of Russia, became the candidate—probably based on the fact that the Prince and the Grand Duchess played together as children.

The prince now often laughs at his former "tea-cup betrothals" as much as he does at all of the latest ones that are heaped upon him.

The feeling is growing in England that the Prince will ultimately turn to the strong solid stock of his own country for a wife. This type of marriage by the Prince would be the most popular he could make, for the people of England look upon him as an excellent type of young Englishman, and they would like their future queen to be just as typically English.

Largest Elevator in the World

The United Grain Growers' grain elevator now under construction at Port Arthur, Lake Superior, will have a storage capacity of 5,500,000 bushels and will cost \$2,000,000. It is to be completed and ready for operation next February. It is said this will be the largest single working elevator in the world constructed alone unit. The site has a frontage of 600 feet on Thunder Bay, and a dock 1,000 feet long will be built to accommodate ships.

Robin Redbreast and the C.P.R.

This bird evidently likes railways, for he has built his nest on the top of the C.P.R. Train Bulletin Board at Meadowdale station, a small village about twelve miles from Toronto. It is easily within reach of any passing traveler and not more than ten feet from passing trains, but Robin knows his home is not going to be molested and when his brood is hatched there will be another family that will feel that Canadian Pacific is synonymous with safety and good treatment.

Settlers Brought Along Much Money

Those Reaching Winnipeg This Spring Had Million Dollars Says W. D. Robb

"One of the striking features about settlement which has taken place in the west during the spring of this year has been the amount of capital held by newcomers," stated W. D. Robb, vice-president in charge of colonization of the Canadian National Railways who, with Dr. W. J. Black, director of the branch of the company's affairs, arrived in Winnipeg from Montreal on June 23rd. "Two months ago," said Mr. Robb, "it was estimated that more than a million dollars in ready cash had been in the hands of settlers reaching Winnipeg, and that amount has necessarily been increased by those arriving since. These people will all be most valuable assets in the development of the country and in time will become useful and prosperous citizens."

Mr. Robb pointed out that the efforts of the organization had been directed upon family settlement work to a considerable degree and that this year it had been successful in securing both from the old land and the United States, some of the finest type of settlers ever brought to Canada. He stated that the Canadian National Railways had been able to bring in a greatly increased number of settlers from Denmark, Holland, as well as from Britain and the States. The number from Denmark alone had increased nearly three times over that of last year, he said.

Attention was drawn by Mr. Robb to the introduction upon which the Canadian National Railways are embarking this year, the development of markets abroad for the produce of the farm. To stimulate this and to interest the farmers directly in this line of agriculture, he stated the company is organizing marketing tours to Europe, the first to leave next January. These are being provided at a minimum cost and the farmers will be under the direction of an expert marketing guide.

The introduction of new capital to Canada is also receiving the attention of his organization, Mr. Robb declared, and a department of natural resources has been opened in London under the charge of a thoroughly competent Canadian.

Speaking of recent complaints that more people are being brought into the country than can readily be absorbed in farm employment, Mr. Robb said:

"I can, of course, speak only for the Canadian National Railways, as far as our colonization department is concerned, no such situation exists. Not only have we been able to absorb all the settlers we have brought in, but we actually have on file in our Saskatchewan office at the present moment one hundred and fifty more requests for farm labor than we are in a position to fill. Our other agencies throughout the west are also capable of handling more people to the satisfaction of the settlers themselves."

Canada's Future Assured

Hon. W. R. Motherwell, Canadian minister of agriculture, in a recent statement declared that "Canada is now ready and able to be mindful of the injunction to count her blessings instead of 'reviewing' any disadvantages." From coast to coast, he declared, men are now looking for the optimistic viewpoint, finding it and forging ahead for the greater development of the country and the realization of its natural resources.

Fish prefer dark or shady sections of water because the ultra-violet rays of the sun are harmful to them. Other creatures, however, are benefited by the rays.

A system of communication by eye-lid talking to talk criminals is being used by detectives in Canada.

Will Revolutionize Telegraph System

Exact Facsimile of Messages Possible by New Wireless Discovery

Recent experiments by G. M. Wright, research worker of the Marconi Company, have brought appreciably nearer the day when messages will be sent by wireless and cable in exact facsimile of the whole message instead of dots and dashes, letter by letter, at present.

The process is an adaptation of that by which wireless photographs are being transmitted, and by this method it will be possible for whole pages of newspapers to be filed at one end of the line and received in the form of facsimile photographs at the other end.

Under Mr. Wright's experiments, the use of this kind have already been sent a few miles in facsimile.

The expense of operating under this system has naturally not yet been worked out but if the cost permits, the day is not far away when, for instance, a newspaper in Montreal can photograph its whole edition page by page and telegraph it to Vancouver for reproduction there.

London newspapers could produce Canadian editions by simply wiring up or cabling photographs of the completed pages to a printer in Canada who by photo engraving processes could speedily reproduce the pages there.

Under this system an aeroplane loaded in wartime could be able to transmit from his plane to army headquarters instantaneous pictures of enemy country and enemy activities. It is obvious that the new system will revolutionize telegraphy.

Want Increased Annual Grant

Saskatchewan Livestock Board Approves Provincial Government

An increase of \$5,000 in the annual grant from the provincial government will be asked by the Saskatchewan Livestock Board. It was decided at a meeting held at the Legislative building, Regina, Hon. C. M. Hamilton, provincial minister of agriculture, took the matter into consideration after hearing D. T. Elderkin, manager of the Regina exhibition, and R. W. Johnson, manager of the Saskatoon exhibition, speak in support of the application. The board at present receives a grant of \$10,000. In explaining the uses to which the extra \$5,000 would be put it was stated that \$1,000 would be used for the board's expenses and the remaining \$4,000 would be divided equally between Regina and Saskatoon winter fairs. The \$10,000 grant has in the past been split equally between Regina and Saskatoon winter fairs.

That the winter fairs are essential to the development of the livestock and poultry industry of the province was stated in the resolution sanctioning the request to the government which also asked that the expenses of the winter fairs be being handicapped by the lack of funds.

Both Mr. Elderkin and Mr. Johnson, in their statements indicated that the winter fairs had been run at a loss but added that they had no intention of parting with the development of the livestock industry in the province.

It was explained that the \$1,000 sought for the expenses of the board included \$500 in connection with the proposal to send a livestock judging team, consisting of five boys, to the Royal Fair at Toronto.

The various stock selection committees were appointed in connection with the Royal winter show at Toronto and the International at Chicago.

Plan Radio Station For Hudson Straits

Will Be Installed This Summer and Is Expected To Be Permanent

This summer will witness the installation of the first radio broadcasting station on the Hudson Straits. Commander G. E. B. Jones, of the radio branch of the marine department, announced a party of radio men would be added to the air force expedition which will sail north with equipment to erect a long range station on the Strathcona, and this station, when erected, would establish daily connection with Ottawa to the south. Fort Simpson and Norway House to the west, and Greenland and Iceland to the east. The station is expected to be permanent.

Coal Mining in British Columbia

During the first four months of the year the coal mines of British Columbia produced 554,236 long tons, an increase of 164,339 tons compared with the similar period of 1924.

The Corliss engine at the Philadelphia Centennial in 1876 was the largest built up to that time. It was rated at 1,400 horsepower, but now single stage steam generator sets develop 80,000 horsepower.

PAINTED FIRES

COPYRIGHT, CANADA, 1925

CHAPTER III.—Continued

From this distance Helmi could think of her work in the hotel with greater composure. She knew she was awkward sometimes, and maybe stupid, though she always tried hard to please. Anyway, it was no harm to have a job, even if she had to pick roots off potatoes in a mouldy, dark cellar, and gather up the rotten ones to burn in the furnace.

Helmi had the large, restless hands which, generation of hard-working women acquire, eager, capable, hands ready for anything that has to be done. Even the cook, Maggie Kenny, who wasted few words of praise on her assistants, admitted grudgingly that the Finn girl "has good smart hands and makes every move tell; if she could use her head as well, she'd do."

Helmi from the little hill on which she sat looked back at the smoky city, lying like a great, glistening under its grey, gray blanket of smoke. It reminded her uncomfortably of the blankets she had to spread every morning on the beds in the rear room of the hotel. In the front of the house she knew there were pleasant rooms, with white spreads and flowered wash-basins, but at the back a great yard of a room had what seemed like a hundred beds, spread with sweaty blankets, and it was this room, she had to sweep and tidy every day. Some days she found men still in bed when she went in, but having set out to tidy the room, Helmi held to her course, taking no notice of the storm of abuse which came from the idle sleepers.

Helmi's dream that Sunday afternoon as she sat on the bank were for the most part pleasant. Consciousness of youth and bounding health made her hopeful of the future. She could work and she could learn, and she would one day go back to Finland with a velvet bag, a long white plume, and silk stockings and fringe on her gloves; and all the young people would gather round her while she would tell of her life in the city, and at the bottom, washing ugly heavy dishes in a hotel.

Helmi always held the dream, too, that she might some day meet a prospective, maybe a young man from Finland who had found gold. Men can

do such wonderful things. Women have to work hard, but pretty girls have a good chance. Lots of Finn boys had come away to Canada, and maybe they would come some time. She thought of the Prince who was in the with a poor girl and swore he would marry her and whose proud uncle sent him a lovely coat that had a great ugly patch of coarse cloth on it. Helmi remembered that if he married the poor girl he would be like the coarse patch. That was a dirty thing for the bad old uncle to do. But what did the Prince do? He got the patch all embroidered with pearls and lovely jewels and sent it back signifying that his lovely poor girl would be the grandest thing about the place. Helmi guessed that held the uncle a while, maybe.

Helmi was so deep in her dreams as she would have if they had been of two young men. They were close upon her when she looked up. She did not like their appearance, but she felt no fear. There was strength in her right arm which brought assurance.

Helmi smiled and nodded to them as she would have if they had been two of the neighbors' boys at home. They said something to her in English.

"Yes," she said, because it was the only word she could think of—and then added, "No talk—Finn."

The boys laughed at that and looked at each other meaningly.

Helmi's young heart was aflutter for adventure. If the young men had been dressed more elegantly she might have thought they were the successful gold-diggers of her dream. But with a calculating eye she appraised them correctly. She motioned them to go on, which they interpreted to mean that she desired to go back to the city with them. When she began to walk away the boldest of the two followed her.

Helmi quickened her pace. The young fellow caught up to her and took her arm. She shook him off and began to run. The running thing always invites pursuit, and, just as she expected, they followed. Helmi purposely let her pursuers gain on her, then, stopping and bracing herself, she gave the first one a powerful body blow which sent him rolling down the bank towards the stream below. While the other one stopped to see what injury had been done to his friend, Helmi raced on. She was neither frightened nor angry—it was all good fun to her, but she knew enough to put as great a distance as she could between her and them for she suspected that the young man who had gone rolling down the muddy bank, might not be pleased with her.

A woman, driving a gray horse in a buckboard, saw her coming and waited for her, deeply concerned to see the flying Helmi, who had evidently been set upon by two ruffians. Helmi sensed her concern, and climbed into the seat, bracing her without delay. Again came the difficulty of language. "Yale Hotel," said Helmi in answer to the unintelligible inquiries, giving the name the accent and pronunciation by the Swedish telephone girl in the hotel.

"Well hello, why should I? Why should anyone?"

All of which was lost on Helmi, who merely repeated the name of her present domicile.

Miss Abbie was distressed and greatly excited over the real adventure which had broken in upon her Sunday afternoon meditations. She had been making her weekly visit to the Girls' Friendly Home, where delinquent girls of the city lodged. The labors of the day were over. Miss Abbie had told the girls a beautiful story of a patient prisoner, held prisoner in a castle, who at last was set free by the ingenuity of her lover; and now

as the driver home she was deep in a dream of golden romance.

Miss Abbie was a maiden lady of forty-eight years, thin, neat and proper, her only extravagance consisting in the number of ornaments she would hang around her neck. On the day that Helmi had bounded into her neat buggy Miss Abbie wore her Miller-gray suit of serge, with the chaste neck-piece of black fur crowned with a small hat of dorey and quills. All of this of course was more unobtrusive and ladylike; but hanging around her thin neck was a string of jet beads (her mother's), a gold chain (her father's), and a riot of miscellaneous articles suspended from the chain. There were keys and a kettle, a pencil which had never had lead in it, a little pig made of bog oak, with a silver ring in its back and a pierced silver urn.

In the little seven-roomed house where she lived the strictest order and precision prevailed everywhere save on the piano, where the same promiscuous spirit asserted itself. There, photos and vases, fans and shells, books and pictures, old stones, painted bottles, Easter eggs, a Buddhist idol, basket and candlesticks crowded and jostled each other for standing room.

Miss Abbie's life showed the same unevenness. Years of careful part-time living would suddenly give way to unexpected outbursts of wild extravagance. After living in one room in the house of a friend she horrified her select circle by building a house of her own. With equal suddenness she left the class of immaculate maidens in the First Presbyterian Church to whom she expounded from Sunday to Sunday the International Sunday School lessons and began her weekly visits to the Girls' Friendly Home.

Certain members of the Ladies' Aid Society said Miss Abbie was very deep, and that these strange outcroppings were but indications of her real nature. The minister's sister, who was something of a psycho-analyst, mentioned her in this connection, with their small percentage of visibility as compared with their hidden volume.

Driving along the dusty summer road this Sunday afternoon, with the houses thickening on each side as they approached the city, Miss Abbie, roused from her dream, carefully studied her new companion. She suddenly felt that she was about to experience an extraordinary wish swelled her heart; a daring, unadvised ambition convulsed her soul. She would do it. No matter what one said. Let the minister's sister rave. She would follow the dream. She would do it if she could get to.

(To Be Continued.)

For Rheumatic Pains.—The pains and aches of Rheumatism and Rheumatoid Arthritis should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, sprains, strains, bruises, and all other ailments in human beings or the lower animals.

British Columbia Wants

Agreements Revised

Says Those Existing Between Province and Dominion Out of Date. Preparations are under way at the Parliament buildings, Victoria, for the interprovincial conference to be held in Ottawa this year at the call of the Federal government. Under the direction of Hon. J. D. MacLean, acting premier, officials are preparing detailed information to support the views of this province, to be presented by the two members of the provincial government. This information is designed to show that the existing agreements between the Province and the Dominion are out of date and require alteration in several directions. The conference is planned for early in November.

"Heathens" are dwellers upon health. The word heathen acquired its meaning from the fact that the introduction of Christianity into the world was the first step towards the "longest realized truth."

The bark of the holly is almost as thin as paper. Trees have been known to die from a bruise.

In 200 tests recently made, the average ash can was found to contain fifty per cent. of coal.

ACHING JOINTS.

Apply Minard's a few times and note the quick relief.

Red Rose Tea, now packed in the bright, clean Aluminium package, is completely guaranteed. You can try it without any risk. Order a package from your grocer. Use any portion of it and if you are not entirely pleased return it and no charge will be made.

Odoscope is Newest Invention

Amazing Medical Apparatus Made by German Scientist.

An amazing medical apparatus which automatically signals whether one is in good health or not has reached London, and is being used with remarkable success by a West London Medical School.

Named the Odoscope, it is the invention of a German scientist, and in certain circumstances enables ordinary diagnosis to be entirely dispensed with.

A pressure of the finger on a tiny button, and the instrument instantly records with unerring accuracy the state of the patient's health.

An interested enquirer who tested it found that he was deficient in three important salts. Not only that, but the apparatus actually traced out in alphabetic character the date and sign of the salt in question.

The miracle machine is the result of a long series of experiments based upon the discovery that in the sun, air and earth and in the protoplasmic organization of man, the creation and death of all life is dependent upon 16 different rays.

In the Odoscope there are 16 tiny buttons, each of which tells the vibrations which biologic salts are deficient in the blood of the individual signalling, and so denotes the state of the health.

An Envious Position

Practically... Tuberculosis Among Dairy Cattle in Fraser Valley.

Dr. W. H. McKenzie, superintendent of the Dominion health of animals branch, in British Columbia, is of opinion that tuberculosis among dairy cattle in the Fraser Valley, B.C., will be practically eradicated within a year. Last year almost 8 per cent. were infected on test; this year's inspection showed a reduction of infection to 1.1 per cent. Next year he expects the reduction will be less than one-half of one per cent. in this area. That is the rate officially regarded as T.B. free. Testing of herds from Hope to North Bend has shown that of the 42,500 tested this year only 420 were condemned. Last year 4,238 out of 46,989 reacted. This year he says, farmers in the Fraser Valley, realizing the value of healthy herds, welcomed the veterinarians who conducted the test.

Had Several Reasons

A minister who had not been long appointed to a church in the South of Scotland asked one lady how she liked the country. "Brilliant," she answered. "I didn't like it at all," she answered. "And, pray, why not," he asked. "Well, in the first place," she answered, "you read yer sermon; an', in the second place, ye didn't read it out; an', in the third place, it wasn't worth the readin'."

Children Cry For "Castoria"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 20 years to relieve babies and children of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep without opium.

The genuine bears signature of *Charles H. Fletcher.*

Importance of Agriculture

Employs More People in Canada Than in Any Other Industry.

Agriculture employs more people than any other industry in Canada. The latest available statistics show that 1,041,618 persons were employed when the figures were taken. Manufacturing came next with 646,657. There were 3,153,189 persons over 10 years of age actually employed in the Dominion, of which 2,832,010 were men and 420,150 women. These figures show that 47.5 per cent of the total population was engaged in some painful occupation.

Waiting words! wonders — if you keep busy while waiting.

The Emden in the Pictures

German War Film Being Shown in London

Evidence that feeling engendered by the War is dying down is forthcoming from the fact that a German film illustrating the exploits of the Emden is being shown in London by an English firm who are best known as the distributors of the British war films "Tyres" and "Mons." Some people consider that they have taken a bold step in booking his wholly German war picture, but the film is so good and so impartial that there is no reason why British audiences should not welcome it on its merits.

The story begins with the Emden's departure from Tangtau at the outbreak of war, and winds up with a remarkably vivid portrayal of her final battle with H.M.S. "Sydney," off Coos Island. It is as restrained and as fair as any of the British war films, and has a stronger narrative force than any except that of Zebruggen, without any unnecessary exaggeration of the glory or of the horrors of actual fighting. The War is shown from the angle of the crew of the German raider, and particularly from that of one young officer, a reservist in business at Tangtau, who meets his own wife as a passenger on one of the captured British steamers. In put in command of the captured British crew, and eventually dies during the bombardment by the Sydney.

Enough glimpses of her various exploits are shown to give one a pretty good idea of her touch-and-go career, and the cooperation of the German admiralty has ensured an authentic naval atmosphere. One episode is omitted. That is the interval during the Cocos Battle when the Sydney, seeing the Emden hopelessly stranded, tried to capture her coal tender, the Bursick, before returning to enforce on Captain Von Muller an honorable surrender. The British are treated quite fairly; there is no "hate" anywhere in the picture—London Correspondence in Free Press.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe or the Growing Child

There is no other medicine so equal Baby's Own Tablets for little ones — whether it be for the newborn babe or the growing child. The Tablets fit ways do good. They are absolutely harmless and never cause any other harmful effects and the mother can always feel safe in using them.

Consult Dr. J. E. Smith, Mrs. John Armour, R. R. 1, South Monaghan, Ont., says: "We have three fine children, and when, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are so good, that I can keep in any home where there are young children."

Young children. Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation, colic, wind, and other ailments of the stomach and bowels and make feeding easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Conan Doyle's Early Struggles

First Twelve Years of Literary Career Were Hard

Sir Arthur Conan Doyle, who was 65 years old recently, is fond of recalling his own early struggles for the encouragement of budding story-tellers. Though he had a short story published in "Chamber's Journal" — first encouragement of so many famous writers — when only 18, he wrote for three years after that without an acceptance, and his early books brought but a small financial return. During the first twelve years of his literary career, indeed, he never made more than 255 per annum by his pen, and the first of the famous Sherlock Holmes series he sold outright, after numerous publishers had rejected it, for 25s.

Girls Won in Competition

The one and only man in the butter-making class at the Bath and West Agricultural Show took his hand at the churn when he competed against over a dozen shingled and silk-stocked dairymaids — and lost. The man was J. E. Smith, of the Somerset Farm Institute, Bridgwater, and the class was for students who had been through a course of instruction in butter-making at a county school.

Ambulance Surgeon—What brought on the fit?

Neighbor—The poor fellow's new car had just been delivered, and when he came out he saw a butterfly tramping over the pawmark.

One thorn of experience is worth a dozen buds of advice.

Minard's Liniment for Insect Bites.

Enjoy a Real Tour on Gum-Dipped Tires

When you tour on Gum-Dipped Tires all roads seem equally good. There is nothing to compare with the smooth, sure performance of these big, low-pressure tires. Jolts and vibrations disappear. Stretches of rough going cannot disturb you or harm the mechanism and well-built structure of your car.

If it is slippery and muddy underfoot, Gum-Dipped Tires, having double the road contact, cling to the road and hold the car unwaveringly to a true, straight course. On grades there is extra traction; at sharp curves or in quick stops you will have perfect control of wheel and brake. Skidding is almost impossible.

Through the development of the exclusive Gum-Dipping process, Firestone has tremendously increased tire mileage in balloon tires. This insulates and is in a position to serve you better and with rubber, reduces internal heat and friction and delivers thousands of extra miles with added comfort and safety.

Ask any Firestone Dealer to show you the structure of Balloon tires. Gum-Dipped tires are built to sell you advantages. He is an authority on this type of tire and will explain every feature of the tire and save you money. See him to-day.

Little Helps For This Week

Rehold, we count them happy which endure.—James, v. 11.

Well, to suffer is divine; Pass the watchword down the line, Pass the challenge, "Endure!" Not to him who rashly bores, But to him who nobly bores.

Is the actor's garland sure? —John Greenleaf Whittier.

For all of us, and sometimes for all of us, action cannot mean doing, then remember bearing too is action.—Greatest of his hardest part.

—William Channing Gannett.

Endure and dare, true heart; through patience, joined with boldness, come we at a crown encircled with a thousand blessings.

—Spanish Proverb.

Minard's Liniment for earache.

Experimenting on Dental Serum

That dentists soon may be injecting serums to prevent tooth decay is the prediction of a specialist in Chicago Dr. C. N. Johnson, who is experimenting on such a preparation. "Tooth decay," he says, is the most common ailment known.

Miller's Worm Powders act mildly and without injury to the child, and there can be no danger of their doing effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numerous cases, and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

Mrs. Smith—Did you know that your former maid is with us now?

Mrs. Smith—You don't say so?

Mrs. Smith—Don't be frightened I only believe half what she tells me.

Pity may be able to love, but a girl isn't willing to accept it as a substitute.

PIMPLES ON FACE TCHED BADLY

Skin Became Scaly. Arms Later Affected. Cuticura Heals.

"I suffered from pimples that broke out all over my face. They were large and red, and itched so badly that I scratched them until they would bleed. My skin became scaly and started to peel off, especially around my mouth. Later my arms became affected with pimples. I began using Cuticura Soap and Ointment and they helped me. I continued the treatment and in about two weeks I was healed." (Signed) E. M. Bradley, 185 Queen St., Charleston, S. C., Aug. 11, 1925.

Use Cuticura Soap, Ointment and Talcum to promote and maintain skin purity, skin comfort and skin health. The Soap to cleanse and purify. Ointment to soothe and heal, and Talcum to powder and refresh. Ask for The Red Ant. Ointment. Beware of cheap imitations. Price, 25c. per box. Cuticura Soap, 25c. per box. Cuticura Shaving Stick, 25c.

NEW PULLMAN HAS HOTEL AIR

Recent changes in sleeping car equipment and decoration place the luxuries of the private car at the ordinary traveller's command, says the New York Times. State rooms in the latest model are like hotel bedrooms. In place of the berth is a three-quarter bed, with silk coverlets. An upholstered chair unfolds into washstand and dressing table. The rubber-tiled floor has a rug.

Communicating doors may be opened between rooms for persons traveling together. Each entrance door has a knocker. A shoebox at the head of the bed opens into the corridor, so that the porter can remove and replace the shoes without disturbing the passenger. Every room has its own radiator, electric fan, ventilating device and candle-design lights.

This new car is for use only on single-night runs. It is a series of bedrooms, without facilities for conversion into a dining room by day. In this respect it goes back to the earliest American sleeper. Other what that primitive sleeper had little in common with the latest one; it was merely a box car with bunks built over one another along one side and a pile of blankets at one end, from which each traveler might secure one, his coat being his pillow. Only men used these facilities; women arranged to make way stops at night.

In 1858 George Pullman got his first commission to convert two day coaches into sleeping cars, and it was then that the Pullman principle still in use had its first expression—a lower bunk made by bridging the space between two facing seats and an upper berth let down from the ceiling. There were no sheets, but the bunks had curtains. The brakemen made up the berths. There was a stove at each end of the car, oil lamps or candles for light, the washroom held one person at a time and offered a small tin basin, to be filled from the drinking-water tank.

The first "palace sleeping car," the Pioneer, appeared. It was a marvel to travelers, who had not expected comfort on the road. It was higher than the ordinary car, wider and longer, had larger windows, polished wood, plush carpets and candles in fancy brass sockets. The Pioneer was followed by the Atlantic, the Pacific and the City of Chicago, and in two years, 48 such sleepers were in use on American railroads.

Then came hotel cars, a kitchen in one end—the President, the Kalama, and the Western World were the first—and from this time on sleeping cars grew more and more lavish and ornate, and in the roccoco '70s and '80s brass claws held seats of plush, lurid in color. Floral patterns sprawled over carpets; acanthus and oak leaves, spirals, flutings and curls adorned the woodwork. Mirrors gleamed, heavy curtains caught the dust. Then in 1908 came a reversal of Pullman standard.

"Gingerbread" trimmings were swept out and severe simplicity took their place. Recent years have seen a recurrence of ornamentation, with elegance of objective, along with more privacy and comfort—headboards between sections, compartments for families. And now regular bedrooms have been instituted.—Ex.

THE TEACHING STAFF FOR THE FALL TERM

(At an adjourned meeting of the school board, held on Monday afternoon, the completion of the lineup of teachers for the fall term was effected. The staff, as at present known, will be as follows:

Principal—Donald McPherson.
Vice-Principal—Eric Muncester.
Grade VIII.—Miss Crystal.
Grade VII.—Miss Kathleen Tompkins.
Grade VI.—Miss Cox.
Grade V.—Miss M. A. Hyson.
Grade IV.—Miss Sarah McVey.
Grade III.—Miss Benvenuto Pozzi.
Grade II.—Miss Lydia Brunetto.
Primary Junior.—Miss Ardenson.
Primary Junior.—Mrs. Fleming.
Primary, West Ward.—Miss McDonald.

CALGARY EXHIBITION

AND STAMPEDE

Although the Calgary exhibition and stampede has an international reputation for being the most thrilling, instructive and entertaining annual celebration held anywhere, the directors and management are determined that this combined event which is to be held at Calgary July 11th to 16th, Canada's 60th anniversary year, will surpass all others.

Three new features will add new thrills and greater interest. These include a new stampede contest called steer decorating, the appearance for the first time in Canada of Brahman steers for the steer riding contest and a novelty stage production, "At The Fair," which will be the closing feature of each evening's programme.

The Brahman steers are a cross between the sacred cattle of India and the Texas cattle, and are similar to the Texas cattle in build, with very long horns. To say they are wild and hard to ride is putting it mildly.

The wild steer decorating contest is a death defying, daredevil stunt, where the cowboy leaps, barchanded, from the back of a galloping horse to the horns of a wild steer and places a ribbon on the horn against time. No rope used—only bare hands. The acme of thrills a feature being introduced for the first time anywhere, where cowboy nerve, brawn and skill are unexcelled.

The novelty revue, "At The Fair," which will close each evening's programme in front of the grandstand, is also a new idea in exhibition entertainment, originated at Calgary, and will be an added surprise to a diversified and intensely interesting show.

In addition to the above new features and the magnificent display of the west's best live stock and industrial exhibits, the week's celebration includes the following features, which made a new attendance record of 197,000 last year.

The stampede parade, the great opening number, five miles long, old timers reunion, the western morning street display, running races, Indian races, cowboys' and old timers' ball, Australian national hand, high class vaudeville, fireworks, old time carps, including Indians in their teepees, Royal Canadian Mounted Police, chuck wagon camp, all surrounding the log headquarters of the old timers, Mounted Police, Hudson's Bay trading post and forestry building. This combined celebration coupled with a visit to Banff, Lake Louise, gems of the Canadian Rockies—provide, a wonderful opportunity for an unusual holiday, which cannot be equalled.

Special passenger fares will be in force from Saskatchewan, Alberta and British Columbia mainland points and special tourist rates can be obtained from anywhere to Calgary, Banff and Lake Louise. Accommodation may be obtained by writing Dan F. Whitney, president Alberta Hotel Association, Calgary, and prize lists, and illustrated folder may be obtained by writing the General Offices of the Calgary Exhibition and Stampede, Calgary.

EXAMINATIONS FOR MINERS' CERTIFICATES

Examinations for miners' certificates are now being held in Bellevue and Coleman, respectively. The members of the examining boards are as follows:

At Coleman—Moses Johnson, David Davidson and Enoch Williams.
At Bellevue—John Crawford, Noble McDonald and Evar Morgan.
No person is allowed to work at the coal face in any mine in the province of Alberta on and after October 1st, 1927, unless he is the holder of a coal miner's certificate. There are some 900 persons to be examined in the Crows' Nest district during this next three months.

The State of Illinois has decided to license bootleggers. Pretty soon bootleggers will be permitting the government of the United States to operate.

JUBILEE

(A SONNET SEQUENCE by ERIC MUNCESTER)

I.—THE DAY

Ring out, carillon! ring, and let thy voice
From shore to shore proclaim the joyful day.
O Canada! let all thy sons rejoice,
And all thy daughters natal homage pay.
Let us give thanks and humbly bend the knee,
Let bygone days and present all be sung,
And let the wonder of the years to be
Frame words of thankfulness on every tongue.
Be every heart and every voice combined
In solemn dedication unto God,
Creator and preserver of mankind,
Whose love directs the paths our feet have trod.
We have not yet attained, nor do we know
What we shall be, save that He wills it so.

II.—FATHERS OF CONFEDERATION

Let them that caught a vision—to unite
This far-flung country, mountain, shore and plain,
Of varying language, varying public right.
In one vast brother-band, with golden chain.
They set aside their rancor and their hate,
And brought their gifts, their high ideals and true,
And laid them on the altar of the state.
As with one aim their grand con-ception grew.
Then to the Motherland they took their cause,
And the grey Parliament, whose sovereign word
Sways countless thousands under righteous laws,
Answered, consenting, and with glad accord
We stand, and bow with reverence, for their name
Liveth forever, and their lasting fame.

III.—THE PRESENT

They passed, the pioneers; and we have learned
The marvels of our goodly heritage,
I wish the increase that our toil has earned,
Taming to useful ends the rivers' rage,
Mining the treasures of the mountain's base,
Sowing and reaping prairie-lands afar,
Winning the richest trophies of the chase.
And striving manfully where forests are,
The thronging cities, linked by hands of steel,
Are hives of industry and homes of skill,
Where craftsmen labor at the whirling wheel
And merchants chaffer goods of mart and mill.
Yearning and strong, the nation's manhood-soil
Still struggles steadfast toward the distant goal.

IV.—THE FUTURE

Two nations blended in the far-off days
While yet the pall of battle-smoke hung low;
A grander union now our spirits praise,
Remembering those of three-score years ago.
From alien lands men come, and join our throng,
Lipsing a tongue they scarce can understand—
Their children's voices harmonize in song
Of Canada, their home, their native land.
Tis but the dawn of wider brotherhood.
When men of every race the wide world-o'er,
Shall live in peace and seek the common good,
And men's grim sacrifices shall be no more.
O vision of the golden age to be!
Then all men's hearts shall join in Jubilee!

AFTER OIL IN THE FLATHEAD

Customs officer Wm. Gates and Corp. Culverhouse, of the mounted police, have just returned from a trip to the Flathead. They went in by motor car from Columbia Falls, a distance of 70 miles. They report that the B.C. Oil Company are starting a new well which they propose to put down over 4000 feet. The new well is on Sage Creek a short distance from Flathead on the B.C. side. The Glacier Oil Company have a well down 3000 feet and they are preparing to test it with nitro-glycerine. The task of bringing in the juice is a delicate one, an outfit receiving a hundred dollars a day for the transportation of some.—Ferne Free Press.

MILITIA ARTILLERY CAMP

Any young man desirous of going to Sarcee Camp from the 18th to 25th July for training with the Canadian Field Artillery apply to Capt. R. F. Barnes, Coleman, or Major W. Barnard, Blairmore.

PUBLIC SERVANTS OF 1867 AND CHILDREN OF FATHERS OF CONFEDERATION TO BE HONORED.

The following is an extract from a communication received from the executive of the national committee for the celebration of the Diamond Jubilee of Confederation: "It has been decided that the large diamond jubilee bronze medal be presented to all living children of the Fathers of Confederation and to any persons now living who were engaged in the public service or in connection with parliament or any of the legislatures of 1867."

Any persons in Alberta entitled to receive this recognition should communicate with the secretary of the provincial diamond jubilee committee, parliament buildings, Edmonton, giving their names and addresses and a synopsis of the public service qualifying them for the honor.

Mr. Nash, ranger and warden of the North Fork district, was a visitor to Blairmore for the jubilee celebration.

The regular meeting of the town council takes place on Monday night next.

Sunday school does not meet during July and August.—A. D. CURRIE, Rector.

ELKS' CARNIVAL A SUCCESS

The Elks annual carnival, held at the arena on Thursday, Friday and Saturday night, was well attended and much enjoyed throughout. The admission-ticket draw took place towards the close on Saturday night, the winning ticket, number 2653, being held by Miss Bilton, of Warner. Miss Bilton, who has just moved from Warner to Calgary, receives a fully-equipped Chevrolet Sedan.

AVIATORS LAND IN HAWAII AFTER AN EPIC FLIGHT

Wheeler Field, Island of Oahu, Hawaii.—First to make the 2,400 mile flight between San Francisco and Honolulu, the army fliers, Lieutenants Lester J. Matland and Albert Hegenberger, arrived here after finishing their long flight in 25 hours and 45 minutes.

Throughout the trans-Pacific hop they had been reported seen only once, by the steamer Sonoma, when 750 miles from the California coast.

The army fliers came in through sunshine that had cleared away the rain and gloom of the night that shrouded their landing place.

Thousands who had waited through the long night had begun to disperse when Matland and Hegenberger came through the haze to triumphant landing.

In their flight of approximately 2,400 miles, Matland and Hegenberger completed the longest trans-oceanic aeroplane flight ever accomplished. The landing was made on a rain-soaked field. The huge plane landed the entire length of the field. Then circling, it came back to the front of the review stand where the highest army, navy and civil authorities in the island were waiting to extend congratulations to the fliers.

The crowd, augmented by hundreds busily returning to the field, soon wild with joy and enthusiasm. Guns of fortresses thundered in salute as the plane stopped before the reviewing stand.

Major-General Edward M. Lewis, commander of the Hawaiian department of the army, clasped hands with Matland and Hegenberger the eyes of both aviators filling with tears, as he said:

"My boys, I congratulate you. Matland said that the radio beacon on the island of Maral failed to function.

"Our compass, he said, 'it was out of here. If we had not had that we would have been out of luck.'

When asked whether they were tired and hungry both fliers admitted that a cold chicken sandwich would appeal to them.

"We had some coffee and sandwiches, but we could not find them, although we looked all over the plane while travelling," said Matland.

Hegenberger said: "Sure we had a lot of mean weather on the trip. Indeed we had our troubles but we feel great satisfaction in having made the dash."

Believes Strike Is Imminent

C.N.R. Employees Vote in Favor of Action Says Maguire

Montreal—Despite the offer of the Canadian National Railways giving increases to some 15,000 employees, a strike of these workers is imminent, stated J. E. Maguire, general chairman, central region, Canadian Brotherhood of Railway Employees here. Results received to date from the strike vote taken recently were overwhelmingly in favor of a strike, it was said at union headquarters.

Hungary's Wheat Crop Less

Ottawa—According to a cablegram received from the International Institute of Agriculture at Rome, the wheat crop of Hungary is 68,784,000 bushels as compared with 69,200,000 last year and 71,674,000 in 1925. The cablegram also states that Hungary's rye crop is 25,511,000 bushels against 26,015,000 in 1926, and 23,225,000 in 1925.

Authorized to Fire Salutes

Ottawa—Edmonton has been added to the list of stations at which artillery salutes are fired on certain authorized occasions including Royal salutes on the sovereign's birthday and Dominion Day, according to an announcement by the department of National defence.

Might Impair League's Mission

Geneva, Switzerland.—Great Britain has dropped her proposal for an investigation of the proper sphere of League of Nations activities, seeing that she feared the league would be harmed by indiscriminate acceptance of new tasks, which would obscure its high mission to maintain peace.

Canada's Trade Increase

Montreal—Canada leads all nations in increased trade since 1912, according to statistics compiled by the National Foreign Trade Council of New York. The figures show that Canada's increase was 85 per cent, Australia coming next with 49 per cent, and the United States third with 31 per cent.

W. N. O. 1928

Crops Doing Well

Favorable Crop Report Covering All Western Areas

Winnipeg.—Since the completion of seeding operations weather conditions have been entirely favorable for growth, and crops are doing well almost everywhere, according to the weekly report issued by the Agricultural Department of the Canadian Pacific Railway. Earlier sown grains are practically as far ahead as at this time last year, with the grain sown later about a week behind. A considerable percentage of the crop was put in unusually late, but with present weather conditions maintaining the rapid and healthy growth there should be no question of harvesting the crop within time this fall.

Cutworms have caused damage of a minor character at a few points, but the loss in this respect does not nearly approach the average. Hail has beaten down the crops over limited acreages in a few localities in Saskatchewan and Alberta, but the grain was not sufficiently advanced to be permanently injured. The noticeable feature this year is found in the increased amount of new breaking undertaken, and the farmers are taking every advantage of the satisfactory soil moisture conditions.

Welcome Return of Royalty

Duke and Duchess of York Are Home After Six Months' Tour

London.—The British newspapers were filled with enthusiastic welcome to the Duke and Duchess of York upon their return from their six month tour to New Zealand and Australia. In connection with the welcome are many references to the self-sacrifice of the Duchess of York in having left her infant daughter, Princess Elizabeth, for so long a period. One writer says this gives the Duchess a link of common understanding with all those other British wives found in the far corners of the empire who are called to visit or make homes in the outposts of the empire and who must choose between their husband and children.

Chinese Nationalists Suffer Defeat

30,000 Casualties Reported After Four Days' Fighting

London.—A Shanghai despatch to Exchange Telegraph says the Chinese Nationalists admit suffering the heaviest reverse of the war at Suichow, North Western Kiangsu province.

Attacked by General Sun Chuan-Pang and his Shantungese the Nationalists evacuated the city after four days fighting, in which they lost 30,000 men, mostly killed, and retreated 30 miles to Pengfu.

Killed in Air Crash

Flight Lieut. Anderson in Fatal Accident at High River

Calgary, Alta.—Flight Lieut. C. N. Anderson, Royal Canadian Air Force, was instantly killed when his plane crashed and burst at the High River Federal air patrol station.

The accident occurred as the flier was landing in formation, a test flight for the Jubilee Celebrations being in progress.

The wrecked ship immediately burst into flames. Anderson was 25 years old, unmarried, and his family resides in the Brandon district.

Dr. Haanel Passes

Ottawa.—Dr. Eugene Haanel, for 20 years superintendent and director of mines, died here recently, aged 90 years. He was internationally famous and held a number of degrees from Canadian and American universities.

Authorized to Fire Salutes

Ottawa—Edmonton has been added to the list of stations at which artillery salutes are fired on certain authorized occasions including Royal salutes on the sovereign's birthday and Dominion Day, according to an announcement by the department of National defence.

Might Impair League's Mission

Geneva, Switzerland.—Great Britain has dropped her proposal for an investigation of the proper sphere of League of Nations activities, seeing that she feared the league would be harmed by indiscriminate acceptance of new tasks, which would obscure its high mission to maintain peace.

Canada's Trade Increase

Montreal—Canada leads all nations in increased trade since 1912, according to statistics compiled by the National Foreign Trade Council of New York. The figures show that Canada's increase was 85 per cent, Australia coming next with 49 per cent, and the United States third with 31 per cent.

W. N. O. 1928

Retains Premiership

HON. JOHN BRACKEN, Premier of Manitoba, whose Government is returned to power.

TWO CLASSES FOR CRUISERS URGED NOW BY BRITAIN

Geneva, Switzerland.—Great Britain proposed to the technical committee of the tripartite naval conference that the cruisers be divided into two classes, one of 10,000 tons carrying eight-inch guns and the other of 7,500 tons with six-inch guns.

The United States and Japanese delegates requested time to examine the proposal "in the light of the effect it would have on the navies of each power concerned during the life of the treaty."

Some observers have expressed fears that the tripartite naval conference has reached a critical stage because the British and United States representatives have not yet been able to come together on the question of reopening the Washington treaty.

The Japanese have announced their intention to support the British view on the question of limitation of the size and armament of battleships, consideration of which would mean re-discussion of problems thought to have been solved by the Washington treaty of 1922.

The determination of the United States delegates to restrict the conference to the scope outlined by President Coolidge's invitation to the powers remains unchanged.

Makes Parachute Descent

Toronto Girl Drops From Aeroplane At One Thousand Feet

Hamilton, Ont.—Miss Caroline Sykes, a Toronto office clerk, made what is known to be the first parachute descent from an aeroplane by a woman in Canada here when she stepped off an aeroplane 1,000 feet up in the air and made a perfect landing on the top of a mountain. Miss Sykes had been up in an aeroplane but once before. It is likely she will be employed to repeat the stunt daily at the Canadian National Exhibition in Toronto.

Seed Company Changes Hands

Regina.—L. R. Robinson, western manager for the Steele-Briggs Seed Company, Limited, has announced the purchase by the Steele-Briggs Company of the Canadian interests of the D. M. Perry Company, Windsor, Ont. The purchase gives the Steele-Briggs Company a total calling list of 34,000 merchants, while the D. M. Perry Company will concentrate its efforts in the United States.

UNITS OF EMPIRE AS ONE IN TIME OF COMMON PERIL

Chicago.—The British family of nations may bicker among themselves but they will meet an outside menace with a united front, Sir Cecil Hurst, legal adviser to the British foreign office, told a University of Chicago audience during the second of a course of lectures on "Problems of the British Empire."

In this lies the claim of empire to be a total unit, and international though foreign powers might question the reasonableness of treating the empire as a unit in strength of the common allegiance to one king, Sir Cecil said.

"Families cannot be made by contract; they cannot be made or unmade by mere agreement of their members. The British empire has grown up together and as they became stronger, they may have become more self-contained more able to stand alone, but the ties which united them to the parent state remain intact."

"British nations, Sir Cecil declared, will continue to act together in foreign affairs because the spirit of British autonomy is based on the admission that questions affecting the whole group cannot be left to one member of the group to conduct without reference to others."

Equality of status among nations, as among individuals did not necessarily mean equality of stature, wealth or temperament. In the British Empire equality meant the absence of any power of control by one community over another. Some inequalities still exist between the powers of the British and Dominion governments but these were being swept away.

Newspaper Men Elect Officers

Mr. Sam Wynn, Yorkton, New President of Weekly Newspaper Convention

Huntsville, Ont.—Sam Wynn, Yorkton, Sask., was elected president of the Canadian Weekly Newspapers Association at the concluding session of the annual meeting here. Other officers are: First vice-president, S. B. Anslow, Campbellton, N.B.; second vice-president, Hugh Savage, Duncan, B.C.; directors include: British Columbia, R. E. White, Kamloops; H. G. Parsons, Golden, Alberta; Charles Clarke, H. R. Enns, Leed, Saskatchewan; C. R. Macdonald, M.P., North Battleford; D. C. Munbar, Esteyan.

Novel Flight Planned

London.—Mayor Moray announced that an invitation would be broadcast immediately to aviators to qualify for a non-stop flight from London, Ont., to London, England, for a prize of £25,000 to be provided by a local brewer. A machine for the flight will be purchased by the same concern and handed over to the aviator as soon as one fully qualified, preferably a Canadian, has been found to undertake the trip.

Favor Amalgamation

Vancouver, B.C.—Ratepayers of Vancouver and South Vancouver overwhelmingly overruled objections voted in favour of amalgamation of the city and the municipalities of South Vancouver and Point Grey.

Receives Peace Prize

Oslo, Norway.—Foreign Minister Stresemann of Germany has arrived here to receive the Nobel peace prize for 1926 which he shares with Foreign Minister Briand of France.

Robbers Destroy Noted Paintings

London.—Scotland Yard detectives are investigating the \$25,000 robbery of the home of Colonel Harry Day, M.P., in which the thieves slashed four valuable paintings, one the gift of Houdini, the handkerchief king in 1900, inscribed "To Harry Day from his sincere pal, Harry Houdini." Colonel Day said he could not imagine a motive for the vandals.

Bill Given Second Reading

London.—Second reading was given in the house of lords to the "Workmen's Compensation (Transfer of Funds)" bill, under which compensation awarded beneficiaries in one part of the Empire may be transferred to the country in which they reside. The bill arose from a resolution passed by the Imperial conference last year.

Increased Acreage in B.C.

Vancouver, B.C.—Agricultural progress in this part of the province is attracting a good deal of attention. It is now reported that 70 acres of canning peas will be set out this season.

Best Opening For Aviation In Canada

Vast Distances Make Time Saving a Distinct Need

Calgary.—This year's two successful trans-Atlantic flights have given a tremendous impetus to the development of air transportation, and commercial flying will see wide-spread extension both in the United States and Canada during the next few years, in the opinion of R. F. Mahoney, head of the Ryan Airlines Inc., San Diego, the monoplane in which Colonel Charles A. Lindbergh made his epoch-making flight from New York to Paris.

"Advances made in the science of flying during the past few years need only to be brought to public attention," he said, and went on to state that transportation by air when properly conducted is at least as safe as any other means of transportation.

He attributed the slow adoption of the flying idea to the vast amount of publicity given accidents in it and the nervousness of the public. "An aeroplane passenger may be scratched in some accident and because of that appears in big headlines, while a railway accident in which 20 are killed is not given half the attention," he said.

"What is the greatest problem waiting to be solved by flying men today?" he was asked.

"I would say that unquestionably it is the establishment of airways, air stations, equipment for night flying and the provision of emergency landing fields," he replied. "This is up to the various towns and cities and the Governments of the Provinces of Canada, the United States and Federal Governments."

"Canada," he said, "has the biggest openings for aviation of any country in the world. It is a country where the factors of time saving and vast distances are involved and where consequently air flying can fill a distinct national need."

Canadians All

Miss Cartier Says Canadian Is a Title to Be Proud Of

Toronto.—After 68 years, Miss Hortense Cartier, daughter of one of the Fathers of Confederation, Sir Georges Etienne Cartier, returned to Toronto to spend her childhood home between 1854 and 1859. When the Government moved to Quebec at that time she went with her father, and until lately has never seen Toronto since.

Mademoiselle Cartier came from France as the guest of the Canadian Government to attend the celebration of the diamond jubilee of Confederation.

"One thing I do hope to see soon is the adjective 'French' dropped in French Canadian," she said. "I think everyone should be just plain Canadian—and it is a title of which everyone should be very proud."

"The going through to the West and I am eager to try a feather crown. My father had a wonderful head dress and belt given him by the Indians."

Transfer of Military Units

Several Western Units Will Change Location

Ottawa.—Re-location of a number of military units throughout Canada is announced by the department of National defence.

The Westmaster Regiment, "C" Company, has been transferred from Mission to New Westminster, B.C.

The Assiniboia Regiment, C Company, has been transferred from Manor to Indian Head, Sask.

Canadian Machine Gun Corps, No. 3 Company, machine gun battalion, has been transferred from Nanaimo, B.C., to Mission, B.C.

Robbers Destroy Noted Paintings

London.—Scotland Yard detectives are investigating the \$25,000 robbery of the home of Colonel Harry Day, M.P., in which the thieves slashed four valuable paintings, one the gift of Houdini, the handkerchief king in 1900, inscribed "To Harry Day from his sincere pal, Harry Houdini." Colonel Day said he could not imagine a motive for the vandals.

Bill Given Second Reading

London.—Second reading was given in the house of lords to the "Workmen's Compensation (Transfer of Funds)" bill, under which compensation awarded beneficiaries in one part of the Empire may be transferred to the country in which they reside. The bill arose from a resolution passed by the Imperial conference last year.

Increased Acreage in B.C.

Vancouver, B.C.—Agricultural progress in this part of the province is attracting a good deal of attention. It is now reported that 70 acres of canning peas will be set out this season.

GOVT. VICTORY IS NOW ASSURED IN MANITOBA

Winnipeg.—Premier John Bracken and his Progressive supporters were returned to power in the provincial general election with a clear-cut mandate to guide the political destinies of Manitoba for another five years.

Indications are for a Government victory in 29 of the 55 seats in the Legislature, or equal to its representation at dissolution.

The striking feature of the election however, was the showing of the Conservative Party, which in standings earlier compiled, was credited with 15 seats, a gain of nine. Liberals appeared to have lost two seats, with only three candidates declared elected and two leading, while Labor appeared to have weathered the storm with its pro-dissolution representation unimpaired. The gains were chiefly made at the expense of the Independent group, which had only elected one member and was leading in two in the last House.

The electors of Manitoba appear to have registered a sweeping verdict in favor of extending the present facilities for the sale of beer. Winnipeg piled up a majority of approximately 15,000 for changes in the beer laws, and sales to be by the glass in government-licensed establishments. The result will be the result. Proponents of the beer parlors out-voted those in favor of beer by the bottle under the "cash-and-carry" system by nearly two to one. Indication that the electors want the Government to continue its control over the distribution of intoxicants was shown in the defeat of the proposal which would have given the brewers the right to deliver beer direct to permit-holders.

Dusting Wheat Fields

Will Use Aeroplanes to Control Dust by Spreading Chemicals

Fargo, N.D.—Aeroplanes for dusting wheat fields with "cola," a chemical with which experiments are to be made in the hope that it will prevent or control blight on wheat, will be used on an extensive scale in Manitoba and will be in a smaller way in Cass County, North Dakota, it was learned here.

T. M. Shields, officer of the Royal Canadian Flying Corps, spent Sunday here on route from Philadelphia to Winnipeg with a new aeroplane which he will use in dusting fields in Manitoba. It is planned to treat about 8,000 acres in the Canadian provinces.

Walter R. Reed, who is to make smaller experiments on his farms near Chaffo, N.D., conferred with Mr. Shields regarding the proposed Canadian experiment. Mr. Reed will have experiments made on three different kinds of wheat, dusting about 10 to 15-acre tracts of each.

Bans Milk From Montreal

Health Commissioner of New York State Issues Strict Orders

Saratoga Springs.—Health officers throughout New York State have been directed by Dr. Matthias Nichol, Jr., state health commissioner, to exclude from their districts all importation of milk and milk products originating in Montreal or in the vicinity of the Canadian metropolis.

In his warning, sounded at the opening session of the annual state convention of public health officers here, Dr. Nichol said that Montreal was in the grip of the greatest typhoid epidemic of modern times. In a population of 700,000 there have been over 7,000 cases of the disease, with a death rate of eleven for each one hundred cases, or nearly 800 deaths. The disease has been an epidemic since January, he said. It was milk-borne, epidemic and emanated apparently from a pasteurizing plant in the city.

Ship License Cancelled

Panama.—Panama Consul Morris at Vancouver, B.C., has been asked to cancel the Panamanian registry of the ship Federalship which some time ago was seized by the American prohibition authorities and later released on the order of a Federal court. The Panamanian government of health on the non-payment of \$115 due to the National treasury for taxes. M. Morris reported that cancellation of the Panamanian registry had been solicited by the owners of the vessel.

Increase in Coal Output

Vancouver.—During the first four months of the year the coal mines of British Columbia produced 554,236 long tons, an increase of 154,232 compared with the similar period of 1926.

BELLEVUE, ALBERTA

The town council sat as a court of revision on Tuesday night, and disposed of a number of appeals against the 1927 assessment.

Mrs. H. A. McVean, of Hillcrest, is visiting friends in eastern Canada.

The United States' national advice to her people: "Support prohibition, but never be caught without a corker."

Word has been received from Mr. R. G. Foot, stating that he will be leaving England shortly to return to Blairmore.

Miss Sarah McVey and Miss Hyson left Saturday for Edmonton, where they take a summer course at the university.

Mr. and Mrs. Robert Smallwood returned to Corbin on Sunday morning, after three or four days spent with friends here.

Miss Madeleine Chardon returned last week end from Calgary, where she has been taking special studies in piano and music teaching.

The regular meeting of Blairmore Lodge of the B.P.O.E. takes place on Tuesday night next. This will be the only meeting for this month, so a full attendance is anticipated.

Chris Tompkins appreciates the big new jubilee postage stamps and figures that it's cheaper to make an envelope out of a sheet of the stamps than to buy an envelope ready made.

The confederation jubilee stamps, issued by the postal department, Ottawa, went on sale in Blairmore on Wednesday of last week and range in series from one to twelve cents. They bear the pictures of Sir John A. McDonald, Sir Wilfred Laurier, the federal houses of parliament, and the picture of the fathers of confederation.

Owing to business pressure, The Blairmore Enterprise was unable to fall in line with the general program of window decorating. However, we did our part in other lines and have been commended upon the excellent appearance of our Jubilee Edition. Copies of this number would make excellent souvenirs and may be obtained at our office.

In May, 1820, a ship, The Ark, sailed from Pictou, N.S., with some two hundred Scottish Highlanders and their minister, Rev. Norman McLeod, bound for the Mississippi. Driven out of her course, she took shelter in St. Ann's harbor, C.B., on the 20th May, and the colony made that their home—a full fledged congregation, with its pastor, the first Presbyterian congregation in Cape Breton.

Considerable interest was manifested in the five-mile road race on Saturday evening last, in which John Kerr won, his time being 23:32. Other entrants were Gaston Bazille, Gunner Lund, Neil McDonald, James McVey and G. Libergal. McVey came in second, losing out by but a few yards. In the one-mile race, Jimmy McVey came within part of a second of attaining the Canadian record time.

The following item is clipped from the Fillmore Chronicle, published at Fillmore, Arizona: "Mark Drumm, who has resided in Fillmore from time to time for the last five years, has returned to the city and has taken over the editorial work of the news department of the Herald. Mr. Drumm is a newspaper man of long experience and will not only handle the news end, but, being as well an experienced advertising man, will endeavor to be of much assistance to business people in preparing their advertisements. Business men are invited to call on Mr. Drumm in this connection at any time." [Mr. Drumm will be remembered by the old-timers of this district as "The Maker of The Frank Paper" at Frank.]

Like Father, Like Son
Teacher—"Johnnie, what does 'note' mean?"
Proverbial Johnnie—"It means girl."

Teacher—"What makes you think that, Johnnie?"

Proverbial Johnnie—"Well, the other day the nurse came in and says to pa, 'It's a girl,' and pa says, 'That's a hell of a note!'"

Local and General Items

Mr. and Mrs. Joe Morgan, of Lundbrook, spent the jubilee holiday here with Mr. and Mrs. Evan Morgan.

Mrs. Carl Smith left here on Friday morning for La Certe, Washington, where she will visit for about eight weeks.

Rev. Fathers Cosman, of Coleman; Harrington, of Blairmore, and Donovan, of Bellevue, are spending this week in the vicinity of Vulcan.

The Methodist church in the United States has just awarded a prize of \$1000 for an oration on prohibition. One couldn't precisely call it a dry speech.

Mr. H. T. Halliwell, of Weyburn, Saskatchewan, took over control of the Coleman Journal on Friday last. We welcome Mr. Halliwell to the Crows' Nest Pass field.

The teacher put a sentence on the board, namely: "This is a worm; do not step on it," and asked a boy to read it. He read: "This is a warm doughnut; step on it!"

Rev. Mr. and Mrs. J. W. Smith arrived here on Saturday last and immediately took up residence in the United church parsonage. Mr. Smith will occupy the pulpit of the United church for the first time on Sunday evening and should be greeted by a large congregation.

A number of auto accidents occurred during the period of congested traffic on Friday and Saturday last. The A.P.P. took the matter in hand early on Friday and were the means of causing speedsters to have some regard for others, as much entitled to the highways as those who wished to step on the gas.

We regret to learn of an accident that befell the seventeen-year-old son of Mr. and Mrs. J. W. Beech, of Natal, who was injured while working at the Crows' Nest Pass Coal Company's sawmill, near Michel, on Tuesday of last week. He got caught in some machinery and one leg was broken in several places.

Mrs. J. A. Kerr returned the early part of the week from Fernie, where she took part in the annual Crows' Nest Pass tennis tournament held there July 1st, 2nd and 3rd. Mrs. Kerr was successful in winning the ladies' singles, defeating Mrs. McIntosh, of Cranbrook, in the finals, and paired with Mrs. W. S. Purvis, of Coleman, yesterday won the ladies' doubles against Miss G. Price and Mrs. A. E. Graham, this final being played off in Coleman, owing to inclement weather for same in Fernie and the fact that all finalists resided in this district. Mrs. Kerr and Mrs. Purvis were winners of the ladies' doubles event last year at the Lethbridge tournament.

Stranger—"I represent a society for the suppression of profanity. I want to take profanity entirely out of your life and—"

Small Blairmore Boy—"Hey, mother! Here's a man who wants to buy dad's golf clubs!"

SHORT RAILWAY LINE, FERNIE TO CALGARY, ASSURED

James Broley, of Fernie, who holds the contract for the construction of the Calgary-Fernie Railway, has received a cable from England to immediately commence work on construction of the new line.

He has already opened camps and is putting men to work cutting the right-of-way. He is confident that the long-delayed proposition will now go through without a hitch and that several miles will be completed before the snow flies.

The proposed line is to run in a northerly direction from Fernie, to cross the mountain ranges at a point west of highwood, and would shorten the distance to Calgary by close on eighty miles.

Magistrate J. W. Graham is spending a couple of weeks in training at the military camp at Sarcee, Calgary.

Dorothy, the two and a half year old daughter of Mr. and Mrs. Andrew Petrie, died suddenly at Hillcrest on Sunday last.

Mr. and Mrs. Malcolm Morrison, who for some years has been resident of Drumheller, has been visiting old friends in Coleman during the week.

Mr. and Mrs. Barattelli, of Corbin, spent the jubilee holiday in Blairmore with their brother and sister, respectively, Mr. and Mrs. Paul Barattelli.

Gilbert Preston Barrett, aged forty-five, brother of Mr. Doyle Barrett, formerly of The Enterprise staff, died at Sheffield, England, early last month.

"Who was the peach I saw you with?"

"She wasn't a peach," she was a grapefruit."

"Why grapefruit?"

"I squeezed her and she hit me in the eye!"

This year's prize list of the Canadian national exhibition at Toronto will be greatly in excess of \$100,000. The total value of the exhibition park is \$13,500,000. In 1926 the exhibition attendance eclipsed all previous records with 1,573,000 visitors. The exhibition cost about \$850,000 annually.

LOST in the arena during the Elks' carnival, on Saturday, July 3rd, a Ladies' Fur Neck Tie. Reward on return to the Secretary, B.P.O.E. The following articles left in the arena may be had by calling at The Enterprise office: Ladies' blue coat, pair ladies' shoes, child's sweater coat and a key.

Companions Byrd and his three companions, Neville, Acosta and Balchan, in the big monoplane America, were obliged to drop into the sea about 200 yards off the coast of France. Their plane wrecked, they pumped up their pneumatic raft and safely reached shore after a successful flight of forty-two hours from New York on a scientific aerial adventure.

A stone cairn will be erected to the memory of two outstanding pioneer missionaries of western Canada, the late Rev. George McDougall and the late Rev. John McDougall, by the Southern Alberta Pioneers and Old Timers' Association. This memorial, 13 feet in height, will be erected on the main road to Banff at the town of Morley, close to the old church founded by the McDougalls.

N. W. Ayer & Son, advertising counsel for the Ford Motor Company, state that a theft has taken place from their offices in Philadelphia of certain preliminary and experimental advertisements in regard to the new Ford car and the material used therein, which in many particulars is fictitious and imaginative, and has been issued as authentic news by a news agency. N. W. Ayer & Son state that the car is not complete, therefore any alleged specifications have no warrant of truth.

The action of Mrs. Rose R. Peck against Mr. Peter C. Hansen, claiming damages to the amount of \$25,000 for alleged interference on the part of Hansen with the sale of her lands near Pincher Creek to the Hutterites, was dismissed by Mr. Justice Tweedie with costs. Mrs. Peck was represented by R. B. Bennett, while Mr. J. E. A. McLeod, K.C., appeared for Hansen.

The big Polio derigible, which started out from Blairmore at noon on July 1st, was seen an hour later travelling in a north-south-east-westerly direction over High River. The pilot is unknown and nothing has been said about his plans, but it is generally believed his mission is to locate mountain sheep herds.

NOTICE TO CREDITORS
AND CLAIMANTS

IN THE ESTATE OF JOSEPH DEVINE, late of Burma, in the Province of Alberta, Butcher, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Joseph Devine, who died on the 18th day of December, A.D. 1926, are required to file with the undersigned Administrator by the 15th day of August, 1927, a full statement, duly verified, of their claims and of any securities held by them, and after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to his knowledge.

Dated this 3rd day of June 1927.

TRENHOLME DICKSON,
Official Guardian and Administrator
of the Estate of Joseph Devine,
